

# Correlative Conjunctions

## TRUE OR FALSE

Correlative conjunctions connect similar groups of words together in a sentence and show how they are related to each other.

1. \_\_\_\_\_

Correlative conjunctions can link items in a sentence that are being discussed independently of one another.

2. \_\_\_\_\_

They emphasize that the items being discussed happen in close succession, concurrently, as the effect of the same cause; or that are both possible effects of the same cause.

3. \_\_\_\_\_

Correlative conjunctions always come in pairs.

4. \_\_\_\_\_

Correlative conjunctions can't be used to connect words or phrases that are being discussed independently of each other.

5. \_\_\_\_\_

Correlative conjunctions introduce a subordinate clause.

6. \_\_\_\_\_

Correlative conjunctions functions as adverbs in a sentence.

7. \_\_\_\_\_

Using correlative conjunctions helps to make writing more concise.

8. \_\_\_\_\_
