

Name _____

The Cosmic Conundrum

Open-Ended Response Answer Key

1. One of the dimensions Max visited had a lavender sky and trees that glowed with an iridescent light. It was inhabited by strange creatures, some with wings, others with tentacles, and a few made entirely of living fire.
2. Max learned that with great power comes great responsibility. He discovered the interconnectedness of the multiverse and realized the need to preserve the balance between worlds.
3. Max evolved from a curious teenager who kept his adventures a secret to someone who recognized the potential threat to the multiverse and faced the decision to become a cosmic guardian.
4. Answers may vary. Some students might choose to keep the portal a secret to avoid potential dangers, while others might decide to become a cosmic guardian to protect the multiverse from dark forces.
