

Name _____

Hopping, Running, and Flying: How Crickets Move

Open-Ended Response Questions

1. Why do you think crickets have different ways of moving, like hopping, running, and flying?
2. Imagine you are a cricket. How would you use your legs and wings to escape a predator?
3. How do crickets' movements help them find food or avoid danger in their environment?
4. What do you think would happen if crickets couldn't use their back legs to hop?
