

Name _____

What Does a Crocodile Look Like?

Short Answer Key

1. A crocodile's skin is tough and scaly, helping it stay hidden and protected.
2. Crocodiles have strong jaws to catch and hold prey.
3. A crocodile's tail helps it swim quickly and balance its body.
4. Crocodiles are dark green, brown, or gray, which helps them blend into their surroundings.
5. Crocodiles stay hidden by blending into their surroundings and staying mostly underwater.
