## What Does a Crocodile Look Like?

### Open-Ended Response Answer Key

1. The crocodile's rough, scaly skin protects it from injury and helps it blend into its environment.
2. Crocodiles have strong jaws, sharp teeth, powerful tails, and rough skin, which help them hunt and stay safe.
3. If crocodiles had bright colors, they might not be able to hide as well, making it harder to catch prey and stay safe.
4. (Example) As a crocodile, my rough skin protects me, my strong jaws help me catch food, and my tail makes me a fast swimmer.
