

Name _____

Crocodile Relationships with Other Species

Open-Ended Response Answer Key

1. Mutualism helps both species by providing food, health benefits, or protection.
2. These relationships help keep animal populations controlled and ecosystems healthy.
3. (Example) As a crocodile, I would stay near water, allowing birds to clean my teeth while I hunt fish.
4. If the environment changed, crocodiles might lose access to certain species, disrupting these beneficial relationships.
