## Crop Scouts: Guardians of the Fields

### Open-Ended Response Questions

1. Imagine you are a crop scout inspecting a cornfield and discover signs of a pest infestation. Describe the steps you would take to report your findings and recommend actions to the farmer.
2. Discuss the challenges crop scouts might face when dealing with unpredictable weather conditions during field inspections. How can they adapt to such challenges?
3. Explain the importance of crop scouts in helping farmers optimize crop yields and reduce the use of pesticides and chemicals.
4. What are some personal qualities and characteristics that can help crop scouts excel in their profession, apart from their technical skills?
