

Name _____

Democracy: The Power of the People

Short Answer Key

1. Democracy protects individual rights and freedoms by enshrining them in constitutions and laws. For example, freedom of speech allows citizens to express their opinions without fear of government reprisal.
2. Elected officials are accountable in a democracy because they can be voted out of office in the next election if they fail to represent the interests of their constituents.
3. In a democracy, the majority rule may lead to negative consequences for minority groups when their rights or interests are not adequately protected. For example, a majority vote may limit the rights of a minority ethnic group.
4. The constitution plays a crucial role in safeguarding democracy and individual rights by outlining the fundamental principles, rights, and limitations of government power.
5. To address voter apathy, democracies can implement measures such as civic education programs, making voting more accessible, and encouraging voter registration.
