

Name _____

Core Values of the Democratic Party in the United States

Short Answer Key

1. The Democratic Party is committed to social equality, aiming to reduce inequality in areas such as income, education, and healthcare through policies and programs.
2. Democrats prioritize education access and support increased funding for public schools, affordable higher education options, and efforts to reduce student loan debt.
3. Democrats approach criminal justice reform by aiming to reduce mass incarceration, reform sentencing laws, and address issues related to racial and social disparities in the criminal justice system.
4. Voting rights are a significant focus for Democrats, and they oppose voter suppression efforts while supporting measures to make voting more accessible and inclusive.
5. Democrats support government regulation to protect consumers and the environment. They advocate for oversight and regulations in industries such as finance, healthcare, and the environment.
