## Becoming the Best You: Developing Good Character Traits

### Short Answer Key

1. Answers will vary but could include traits like patience, kindness, or responsibility. The explanation should provide a reason for choosing that trait.
2. Taking responsibility for one's actions shows maturity, sincerity, and reliability, which are qualities that build trust with others. When you admit to your mistakes and make amends, people are more likely to trust and respect you.
3. Answers will vary, but students should describe a specific situation, their empathetic actions, and how it positively impacted their relationship with someone.
4. Example traits requiring self-discipline include patience or self-control. Students should explain how they can practice the chosen trait, such as remaining calm in frustrating situations (patience) or resisting temptations (self-control).
5. Setting clear and achievable goals is essential in character development because it provides direction and motivation. It helps individuals track their progress and measure their success.
