

Name _____

The Busy Life of a Dragonfly

Short Answer Key

1. Dragonflies are active during the day.
2. Male dragonflies guard their territory to protect it from other males and attract females.
3. Dragonflies rest on plants or rocks near the water.
4. Dragonflies hunt alone but may share the same area if there's enough food.
5. Dragonflies can hover and change direction in midair, helping them catch prey.
