

Name _____

How Dragonflies Talk Without Words

Short Answer Key

1. Male dragonflies defend their territory by flying in circles, chasing intruders, or bumping into them.
2. Dragonflies have bright colors to attract mates. These colors show they are strong and healthy.
3. A dragonfly's eyesight helps it see other dragonflies' movements and avoid collisions.
4. Dragonflies interact while hunting by watching each other's movements to avoid crashes.
5. Dragonflies communicate by using their flight patterns and bright colors.
