## Dali's Dreaming Giants

In Dali's world, surreal and strange,  
The Elephants roam, their form deranged,  
Long legs like stilts, slender and frail,  
Their massive bodies, a surreal tale.  
They bear the weight of time and dreams,  
Upon their backs, reality teems,  
Their spindly legs, a fragile grace,  
In this surreal realm, they find their place.  
With elongated trunks, they reach for the sky,  
As if seeking answers, questioning why,  
Symbolic giants, majestic and grand,  
In Dali's canvas, they make their stand.  
Amidst a barren landscape, they stride,  
Invisible burdens they try to hide,  
Their enigmatic eyes, deep and wise,  
Hold secrets of worlds beyond the skies.
