The Life of a Farm Laborer: Sowing Seeds of Hard Work

Short Answer Key

1. Farm laborers might perform tasks such as picking fruits or vegetables, operating harvesting machinery, and sorting and packing harvested produce.
2. Teamwork is crucial because many farm tasks require collaboration to complete efficiently. Working together ensures that tasks are completed on time.
3. Farm laborers prepare equipment by inspecting it for any issues, refueling or recharging machinery, and ensuring all parts are in working order.
4. Farm laborers start early in the morning to take advantage of cooler temperatures and daylight, which helps with their productivity and safety.
5. Farm laborers ensure the quality of crops by planting them at the right depth, spacing, and timing and by carefully harvesting them to prevent damage.
