

Name _____

Dive and Dine: The Feeding Habits of Penguins

Short Answer Key

1. Penguins' primary food sources include fish, krill, and squid.
2. Penguins catch krill by filter feeding.
3. One predator of penguins mentioned in the passage is dolphins.
4. Adaptations such as streamlined bodies and keen eyesight help penguins catch their prey.
5. Penguins often hunt in groups to reduce the risk of being attacked by predators.
