## The Great Lunchroom Food Fight Championship

### Short Answer Key

1. Mr. Thompson turned it into a championship competition to make it fun and memorable for the students, fostering a sense of camaraderie and laughter.
2. Some of the rules included no harmful items, no aiming at the face, and cleaning up afterward. These rules were important to ensure that the food fight remained friendly, safe, and fun.
3. One creative tactic was using a sandwich castle for defense. This helped protect Team Sandwiches from incoming food and gave them an advantage in their match.
4. Sarah loaded a spoon with mashed potatoes and aimed for the flagpole, toppling it over and securing a victory for her team.
5. Team Desserts won because they had the chocolate pudding catapult as their ultimate weapon. It covered Team Sandwiches in gooey pudding, making it difficult for them to defend themselves.
