Name _____

Firefly Talk: Glowing Conversations in the Night

Open-Ended Response Questions

1. How might the flashing patterns of fireflies help them survive in the wild?

2. Why do you think fireflies developed the ability to glow instead of using sounds or scents?

3. Imagine you are a scientist studying fireflies. What questions would you ask about their communication?

4. How does the ability to glow make fireflies different from other insects?
