Defending the Digital Fortress: The Magical World of Firewalls

Open-Ended Response Questions

1. Imagine you are a cybersecurity expert tasked with explaining firewalls to a friend who knows nothing about them. How would you describe a firewall in simple terms?
2. In what situations do you think a software firewall might be more useful than a hardware firewall, and vice versa?
3. Why is it crucial for individuals and organizations to have a firewall in place in today's digital age?
4. Have you ever experienced a situation where a firewall protected your computer from a potential threat? If so, describe the situation and how the firewall helped.
