Flavors and Temptations: The Impact of Flavored Tobacco and Vape Products on Youth

Open-Ended Response Questions

1. Describe the variety of flavors available in tobacco and vape products and how they contribute to their appeal among young consumers.
2. Discuss the concerns of health experts regarding the impact of flavored tobacco and vape products on youth, including the fear of creating a new generation of nicotine users.
3. Share your thoughts on the effectiveness of flavor bans in reducing youth access to flavored products and their potential impact on the market.
4. Imagine you are designing an educational campaign for young people about the risks of flavored tobacco and vape products. What strategies and messages would you use to effectively convey this information and discourage their use?
