

Name _____

Dino-Mite Discovery: T-Rex Fossils Found in School Playground!

Short Answer Key

1. The students were digging in the school's sandbox during recess when they discovered the T-Rex fossils.
2. The paleontologists reacted with excitement and rushed to the school with their tools. They carefully excavated the fossils to preserve them.
3. The students at Sunnydale Elementary are turning the T-Rex fossils into a learning opportunity by studying paleontology and creating a mini-museum to display the fossils.
4. News of the T-Rex discovery spread worldwide because it was an astonishing find that fascinated people interested in Earth's history.
5. The paleontologists plan to continue studying the fossils to learn more about the T-Rexes and the environment they lived in.
