

Name _____

Riding the Wave of Friendship

Open-Ended Response Answer Key

1. Lily's friendly nature and enthusiasm led her to strike up a conversation with Sam, who was sitting alone and appeared lonely on the shore. The ocean brought them together as they both shared a love for surfing and the sea, which became the common ground for their friendship.
2. The pact to build a surfboard held great significance for Lily and Sam as it symbolized their commitment to their friendship and their shared dreams of creating something meaningful together. It reflected their determination to strengthen their bond through shared experiences and adventures.
3. The surfboard "Seawave" became a symbol of Lily and Sam's friendship because they designed it together, and it carried their shared dreams and memories. It represented their bond, their love for the sea, and the adventures they had experienced together. It was a physical manifestation of their friendship.
4. The story conveys the message that friendship can be forged through shared experiences and a shared love for something, in this case, the ocean. It emphasizes the power of camaraderie and the meaningful connections that can be formed by embracing life's simple pleasures and adventures. The ocean plays a role in bringing people together, offering a backdrop for shared experiences and lifelong friendships.
