

Name _____

Frog Talk - Short Answer Questions Answer Key

1. A mating call is a sound male frogs make to attract female frogs for mating.
2. Frogs use body language by stretching their legs, puffing up, or waving to appear confident or to defend their territory.
3. Frogs make alarm calls to warn other frogs of nearby predators or danger.
4. Some frogs use scents to communicate in places where sounds don't travel well, like dense forests.
5. Frogs in tropical regions, like the Amazon rainforest, use unique sounds and behaviors to communicate.
