

Name _____

Future Impact

Open-Ended Response Answer Key

1. Students might suggest rules like avoiding touching anything, not taking objects, or only observing history without interaction.
2. Some may argue that Eckels is responsible because he ignored the warnings, while others might say it was an accident that couldn't have been predicted.
3. Examples could include littering leading to ocean pollution, deforestation affecting animal habitats, or burning fossil fuels causing climate change.
4. Students might reflect on how even small actions, like recycling or saving water, can have a positive impact on the environment.
