## The Gaming Geniuses

### Open Ended Questions Answers

1. Answers may vary, but qualities that make someone a "gaming genius" could include exceptional reflexes, strategic thinking, dedication to practice, and the ability to adapt to various game genres.
2. Students should reflect on their own experiences and describe how they prepared for a challenging opponent or competition in a game or sport. They should also share any lessons learned.
3. Ethical considerations may vary, but students should provide reasoning for their stance on whether it's fair for Serena to have studied Max and Alex's techniques. They can discuss the balance between competition and sportsmanship.
4. Answers may vary, but students should consider how Max and Alex's defeat might impact their future gaming endeavors, including their attitude, motivation, and approach to competition. They should use the story's events to support their responses.
