

Name _____

The Age of Dinosaurs: How Do We Know When It Started and Ended?

Open-Ended Response Answer Key

1. Fossils and rocks tell us about animals and environments that no longer exist. This helps us learn Earth's history.
2. It might have been scary and exciting, with giant dinosaurs and no people around.
3. It helps us learn how animals change and adapt, and how nature can change over time.
4. I'd want to find a T. rex fossil because it was one of the biggest and most powerful dinosaurs.
