

Name _____

The Spooky Adventures of Ancient Pirates and Ghost Ships

Long ago, when the oceans were uncharted and full of mysteries, there were fearless sailors known as pirates. These ancient pirates sailed the seas in search of hidden treasures, and they had many thrilling adventures.

Some pirate legends even speak of ghost ships that haunt the oceans to this day. The most famous ghost ship is the Flying Dutchman, said to be crewed by ghostly sailors who can never find rest. If sailors saw the Flying Dutchman, they believed it was a sign of bad luck!

The pirates of old had maps with secret markings and talked in codes to keep their treasures safe. They wore eye patches, not because they were missing an eye, but to keep one eye adjusted to darkness when going below deck.
