

Name _____

The Giggle Forest

In the heart of Giggletown, there's a magical place called the Giggle Forest. Every tree in this forest is known as a Giggle Tree because it makes silly and funny sounds when the wind blows. The squirrels giggle, the birds chuckle, and even the leaves can't help but laugh. When children visit, they can't stop giggling too. It's the happiest and silliest forest you'll ever find!
