

Name _____

Where Do Giraffes Live?

Open-Ended Response Answer Key

1. A giraffe's long neck helps it reach food, and its height allows it to spot predators.
2. In dense forests, giraffes might struggle to find food and spot predators easily.
3. Protecting giraffe habitats ensures they have food, safety, and space to live.
4. As a giraffe, I would start my day by grazing on tree leaves, staying close to my family, and keeping watch for predators.
