

Name _____

The Gentle Giants of Africa: All About Giraffes

Short Answer Key

1. A giraffe's tongue is long and dark purple, helping them eat leaves from tall trees and avoid sunburn.
2. An adult giraffe can grow up to 18 feet tall.
3. Baby giraffes can stand shortly after birth to stay safe and keep up with their herd.
4. Giraffes live in grasslands and open woodlands in Africa.
5. Giraffes help their environment by eating leaves from tall trees, allowing new plants to grow.
