

Name _____

The Dangers Giraffes Face in the Wild

Open-Ended Response Answer Key

1. Young giraffes are smaller and weaker, making them easier for predators to catch.
2. Droughts can limit water and food, leading to weaker giraffes and fewer births.
3. Educating people helps create awareness and support for conservation efforts.
4. As a giraffe, I would stay with my group, use my long legs to kick, and stay alert to avoid danger.
