

Name _____

The Gentle Giants of Africa: All About Giraffes

Open-Ended Response Answer Key

1. Giraffes live in towers for safety. The group helps protect young giraffes by watching for danger together.
2. If giraffes disappeared, the balance of the ecosystem might be affected since they help shape the landscape by eating leaves from tall trees.
3. People can help by supporting conservation efforts, protecting habitats, and stopping poaching.
4. As a giraffe, I would spend my day eating leaves, watching out for predators, and staying close to my family for safety.
