

Name _____

Goldfish: How Do They Communicate?

Short Answer Key

1. Goldfish use their fins and tails to signal emotions like excitement or calmness.
2. Bright colors show that a goldfish is healthy and ready to interact with others.
3. A goldfish might dart away quickly to warn others of danger.
4. Goldfish interact with plants or rocks to signal food or safe spots to other fish.
5. Living in groups helps goldfish feel safer and more secure.
