## The Daily Habits and Behaviors of Gorillas

### Short Answer Key

1. Diurnal means active during the day.
2. Gorillas groom each other to strengthen social bonds and stay clean.
3. Silverbacks protect their groups by leading them, keeping watch for danger, and showing strength when needed.
4. Gorillas use leaves and branches to build their nests.
5. Gorillas stay in groups for protection, food sharing, and social bonding.
