

Name _____

Rules of the Game: How Government Policies Shape Supply and Demand

Short Answer

1. Provide an example of a government subsidy that can affect the supply of a specific product.
2. Explain how government regulations aimed at reducing pollution can impact both supply and demand in an industry.
3. Describe the influence of government funding on the education sector and how it can affect both supply and demand.
4. How can government policies that require health insurance coverage impact the demand for healthcare services?
