Name _____

Leaps and Bounds: How Grasshoppers Move

Open-Ended Response Questions

1. Why do you think grasshoppers use different ways to move instead of relying on just one method?

2. How do a grasshopper's jumping and flying skills help it survive in the wild?

3. If grasshoppers couldn't jump, how might that affect their role in the ecosystem?

4. Imagine you are a grasshopper. Describe a day where you use jumping, flying, and crawling to survive.
