

Name _____

Gravity Unveiled: The Connection Between Earth's Composition and Gravitational Pull

Multiple Choice Answer Key

1. c. Mass of objects and their distance from the Earth's center
2. c. Outer Core
3. c. Because they have a stronger gravitational pull acting on them
4. b. Gravimeter
5. b. Denser rock leads to stronger gravitational pull, while less dense rock results in weaker gravitational pull.
