## Becoming a Super Friend: The Art of Being a Great Pal

### Open-Ended Response Answer Key

1. Answers will vary. Students should reflect on a challenging situation in a friendship, how they handled it, and what they learned from the experience.
2. Answers will vary, but students can discuss how a world where everyone practiced the qualities of a good friend might lead to more positive relationships, stronger communities, and greater understanding among people. They can also mention potential challenges in achieving universal friendship qualities.
3. Embracing diversity is important in friendships because it allows for a richer and more inclusive experience. Students can discuss how diversity can enhance their friendships by exposing them to different perspectives, cultures, and experiences.
4. Students should share a personal goal related to being a good friend, outline the steps they plan to take, and explain the positive impact they hope it will have on their relationships with others.
