Sustainable Fashion: Dressing for a Greener Future

Open Response Questions

1. Reflect on your own clothing choices. What steps could you take to make your wardrobe more sustainable? Share at least three specific actions or changes you could implement.
2. Imagine you are a fashion designer interested in creating a sustainable clothing line. Describe the steps you would take to ensure your brand adheres to sustainable fashion principles, from material selection to production methods.
3. Consider the environmental impact of the fast fashion industry. How can sustainable fashion practices help mitigate some of these negative effects, both locally and globally? Provide specific examples.
4. Discuss the role of consumers in driving the shift toward sustainable fashion. How can informed consumer choices influence the fashion industry and promote sustainability?
