

Name _____

What Does a Guppy Look Like?

Short Answer Key

1. Most guppies are between 1 to 2 inches long.
2. Male guppies are colorful with bright patterns, while females are duller in gray or brown.
3. Guppy tails can have stripes, spots, or swirls.
4. Their colors change to help them blend in and avoid predators.
5. Guppies have large eyes that help them stay alert and find food.
