

Name _____

What Does a Guppy Look Like?

Open-Ended Response Answer Key

1. Male guppies' colorful tails may help them attract mates and stand out during mating.
2. Their small size helps them dart quickly and escape from predators.
3. I would describe a guppy as a small, colorful fish with bright patterns on its tail, a streamlined body, and big eyes.
4. Guppies are popular for aquariums because they are colorful, easy to care for, and interesting to watch.
