

Name _____

Exploring the Habitat Preferences of Non-Vascular Plants

Short Answer

1. Describe two types of habitats where non-vascular plants are commonly found.
2. Explain why non-vascular plants thrive in wetland environments.
3. What adaptation allows non-vascular plants to survive in alpine regions?
4. How do non-vascular plants contribute to ecosystem functioning in urban areas?
5. Discuss the significance of shade in supporting non-vascular plant growth in forests.
