

Name _____

What Does a Hedgehog Look Like?

Open-Ended Response Answer Key

1. A hedgehog's quills protect it, its snout helps it find food, and its small size allows it to hide easily.
2. Answers will vary but should mention the care needs and spiny defense of hedgehogs.
3. Answers will vary but should compare size, defense methods, and diet.
4. When safe, a hedgehog is open with its face visible. When threatened, it curls into a ball with spines out.
