

Name _____

Do Hedgehogs Form Relationships with Other Species?

Open-Ended Response Answer Key

1. Controlling insects prevents pests from damaging crops and plants, keeping gardens healthy.
2. Parasites can weaken hedgehogs, and people can help by creating clean habitats and using safe treatments for pets.
3. Hedgehogs help control insect populations, preventing crop damage and maintaining biodiversity.
4. Hedgehogs might struggle in groups because they prefer solitary habits and could compete for food.
