## The Magical History Book

### Short Answer Key

1. Alex rewrote the construction of the Great Pyramids of Egypt and experienced being transported to ancient Egypt, witnessing the construction firsthand.
2. Alex's understanding of history changed as they realized that history was a tapestry of human experiences and choices. They learned to appreciate the value of preserving historical events, even if they were challenging or painful.
3. Answers will vary. Students can discuss a specific consequence, such as preventing a historical conflict leading to unintended technological advancements.
4. Alex faced the moral dilemma of whether to help Amelia create a potentially dangerous invention. They decided to talk to Amelia about the consequences and made changes to the invention's design to ensure it was used for the betterment of humanity.
5. Alex made the final choice to use the book's magic to leave a lasting positive impact on history, rather than rewriting it for personal gain. They left a heartfelt message within the book expressing their gratitude.
