

Name _____

The Lion's Home: Where Lions Live

Short Answer Key

1. Lions prefer open spaces where they can see prey clearly.
2. A lion's ideal habitat includes open grasslands with tall grasses and scattered trees.
3. Lions hunt animals like zebras, buffalo, and antelopes.
4. Wildlife reserves provide safe spaces with food and protection from hunters.
5. Asiatic lions are endangered because they have a smaller habitat and limited food sources.
