

Name _____

The Amazing Life of a Housefly

Open-Ended Response Answer Key

1. Houseflies are found near people because they rely on human food and waste for survival.
2. Tasting with their feet helps houseflies quickly decide if something is edible.
3. People can cover food, clean up spills, and keep trash sealed to keep it safe from flies.
4. As a scientist, one might study how houseflies spread germs or how they process food.
