

Name _____

Rock and Roll: How Human Activities Shape the Rock Cycle

Short Answer

1. How does fragmentation of rocks during mining impact the weathering process?
2. What are tailings, and why can they be a concern in mining activities?
3. Explain how construction activities can alter landscapes and affect natural processes related to the rock cycle.
4. What are some potential environmental challenges associated with mining and construction activities?
5. Why is it crucial to develop sustainable practices in mining and construction?
