

Name _____

Nitrogen in Flux: Human Impact on the Nitrogen Cycle

Short Answer

1. Describe one way in which agricultural practices contribute to nitrogen runoff into water bodies.
2. Explain how nitrogen emissions from vehicles and factories can impact soil chemistry.
3. Discuss the consequences of nitrogen oxide emissions for human health and the environment.
4. How does the combustion of fossil fuels affect atmospheric nitrogen levels?
5. Describe one potential solution to mitigate the negative impacts of human activities on the nitrogen cycle.
