## Dining with Dolphins: Exploring Their Appetites and Hunting Techniques

### Open-Ended Response Questions

1. Can you describe how dolphins use cooperative hunting to catch fish, and why this technique is effective?
2. How might changes in prey availability impact dolphin populations and their hunting behaviors?
3. What are some adaptations that enable dolphins to hunt for prey in the dark depths of the ocean?
4. How do human activities, such as overfishing and pollution, affect dolphin populations and their food sources?
