

Name _____

Dining with Dolphins: Exploring Their Appetites and Hunting Techniques

Short Answer Key

1. Herring, mackerel, or sardines
2. Dolphins use echolocation to detect the echo of squid's soft body tissue.
3. Seals, sea lions, or smaller dolphins
4. Dolphins use cooperative hunting to catch fish in groups by herding schools of fish into tight balls or towards the water's surface.
5. Shrimp or crabs
